La Q. Rawson, Sec'y. Sept. I-25:7 SARTAIN'S UNION MAGAZINE.

In a cknowledged Blackwood of America.

An importial Press has awarded to Sartain the credit of publishing the best Magazine in America. Their decision is founded upon the established fact, that he publishes better and more varied embellishments than any of his rivals and that he pays for original contributions more than all his competitors combined, and hence not perplexed, but think only what is right to do in sight of him who seeth all things, and bear without pining the result.

GREAT INDUCTION.

To Subscribe for the coming Volume, JANUARY 1850.

The publishers of Sartain's Magazine of Literature and advantage of unsuspecting confidence, to work out any ends but those for which that confidence was given in full faith.

The publishers of Sartain's Magazine of Literature and art, amounce to the reading public, that whilst their Magazine for 1849 is acknowledged to be superior in every respect to any other published in this country, they have made arrangements whereby the Magazine for the next year will excel all its former issues.

The Literary Department will remain under the control of its present editors, Prof. John S. Hart of Philadelphia, and Mrs. Caroline M. Kirkland, of New York, who, besides articles from their own pens every month. who, besides articles from their own pens every month

have secured contributions from the Best Authors in Europe and America. These contributions, including some of the most brilliant magazine articles any where to be found, are en-Mixture—the Great American Remedy—we have only to say, that every name that has appeared in these notices as giving testimony to the great curative power of the carried distinguished names to curlist of the carried distinguished names to curlist of contributors by the liberality of our prices, or the respec-

Best Artists of this Country. Worn-out London Steel Engravings, which are freely used by some Periodicals, will not find their way into Sartain, under any circumstances. There would be a vast saving to the publishers in using such plates, as they can be purchased at almost any price from \$25 down to the price of the metal. We aim to give the best, both in Literature and Art.

THE FASHIONS. Fashion Plates are the nature of news. The lady who wishes to dress fashionably, does not ask what was worn, but what is worn. She does not want in 1849 the fashtons of IS4S, nor in December those of August. Paris is the acknowledged centre of the Mode, whence all Fush ions primarily originate. Any periodical which employs a process of 'Americanizing' them, that requires from three to six months, can only be companed to a newspaper that should persist in importing its files of foreign news by the old line of Liverpool Packets, or hire a man at great 'extra' expense to bring the news on foot from Naw Polegas, instead of expectations and talears and manufacture to orders. He will keep constantly on hand, manufacture to orders to constantly on hand, manufacture to orders. New Orleans, instead of using the steamer and telegraph, by the method we have adopted, a cut giving the Fashions with the minutest accuracy, can be completed in three or four days after the arrival of the Steamer. To edition, requires as many months. Of this we had a str king proof during the issue for 1849, by which we gave the Fashious three or four months ahead of our competitors! Our plan enables us also to furnish triple the number of plates, thus furnishing our readers with : Il the prevailing modes of Paris and London. Instead of a simple plate of two figures, we often give three or four plates. with eight or ten distinct figures, each exhibiting a sep-

We do not design, however, to solicit support to Sartain's Union Magazine by promises. EONSUMPTION

BRANT'S INDIAN PULMONARY BALSAM

Curse very many of the most strongly marked and developed cases of Paissenary Consemption—next, undoubted cases of alcorated and discused LUNGS—such hopeless cases as were never before cursed by any other medicine. So utterly kepeless were some of the afflicted persons, as to have been pronounced by physicians and friends to be ACTUALLY DYING. Some, who had their burial-clothes made, have been cursed, and yet live—others, who it was said would not live another day, are now as well and hearty as they ever wore.

It possesses all the cleaning and purifying virtues nearly as powerful and active as the preparation which we call

BRANT'S INDIAN PURIFYING EXTRACT.

This differs from that because the reserves excess and the destroys the reserves as the preparation which we call

differs from that, because this possesses several other Medias which are peculiarly aliapted to, and are escentially necessity

Coughs and Consumptions, and all diseases of a pulmonary nature—such diseases as usually prove so fatal under ordinary treatment, when they attack the Breast, Throat, Lungs, and Heart. This RALSAM heals and curse Ulors in the Lungs, and elsewhere internally, as certainly and easily as the Pusirvino Extract curse and heals ulcers externally. This Balsam curse nine cases of Cough and Consumption out of fen, after all other remedies have failed to do good.

Thousands of Consumptions and Chronic Coughs, abundantly prove its unfailing efficacy in such diseases, and its undoubted curative power; and soothing, healing properties in the following complaints and diseases, viz.: Spitting of Blood, Bleeding at the Lange, Pain in the Breat and Side, Night-Sweets, Norvous Complaints, Paipitation of the Hears, Cholera Infantum, Dynastery and Sammer Complaints in Children and Adults, Ashma, and Adults, Ashma, and Adults.

FEMALE WEAKNESSES AND COMPLAINTS. No remedy that has been offered to the public has ever been half as certain and effectual in correcting ALL the incidental seaknesses and irregularities of the female sex, as BRANT'S PULMO-NARY BALSAM. It makes no difference whether the derangament he suppression, excess, or other incidental makeses—it REG-ULATES ALL, by strengthening the system, equalizing the circulation, and contains and alloying NERVOUS IRRITABILITY See our Pamphlets for proof.

CONSUMPTION.

A Dying Woman Cured! We state this cure to prove the power to sare life, when this BALSAM is used, even after the person is considered by physician and friends to be in the last stages of disease—actually dyding—and, in this case, so far gone that the shroud and burial-clother were bought. For the particulars of this case, and the respectable and undoubted proof of all the circumstances and facts, we refer to our PAMPHLETS.

This cure was effected on Mrs. ZIBA DYKEMAN, of Ballston Spa, Stratega Co., N.Y. We can prove beyond a doubt, many others almost equally as hopeless, and innumerable cases of Coughs and Consumptions CURED, which were pronounced incurable by skilful physicians.

LIVER COMPLAINT. See the cure of Dr. Hubbard, of Stamford, Ct., and others. Dyspepsia!

See the cure of T. S. Fillow, merchant, of Attics, Wyoming Co. N. Y., and many more, in our Pamphlets. Dysentery and Summer Complaint in Children and Adults are always cured. Weakly Children will become flesky healthy, and hearty, and grow rapidly, by the use of this BALSAM.

No mother need ever mourn the death of her child by Cholera Infantum, while teching, if BRANT'S PULMONARY BALSAM be administered. It should be, for such cases, given in larger than the ordinary doses.

ELIZA COOK: JUST published No. 1 of the American Edition of Eli-za Cook's Journal. EDITORIAL ADDRESS.

WHILE venturing this step in the universal march of periodicals, let it be understood that I am not anxure myself a mental Joan of Arc, bearing special to declare myself a mental Joan of Arc, bearing special mission to save the people in their noble war against igmorance and wrong. I simply prepare a plain feast where the viands will be of my own choosing and some of my own dressing. I hope if what I provide be wholesome and reliabing, I shall have a host of friends at my board whose kind words and cheerful encouragement will keep me in a proud and honorable position at the head of the table.

I have been too long known by those whom I address to feel strange in addressing them. My earliest rhymes written with intuitive impulse before hackined experience. or politic judgment could dictate their tendency, were accepted and responded to by those whose good is a 'tower of strength.' The first active breath of nature that swept over my heart strings awoke but wild, earnest mel-odies which I dotted down in simple notes. When I found that others thought the tone worth learning —when I heard my strains hummed about the sacred altars of domestic fires des, and saw old men, bright women and young children, scanning my ballad strains, then was I nade to think that my burning desire to pour out my scul's measure of music was given me for a purpose.— My young bosom throbbed with rapture, for my feeling met with responsive echoes from honest and genuine hu manity, and the glory of Heaven seemed partially re-vealed when I discovered that I held power over the afections of earth.

The same spirit that prompted my first attempts will mark my present one. What I have done has found generous support, let me trust that what I may do will still meet the kind hand of help. I have full confidence in my friends, and believe if I offer them the combination of utility and amusement, they will freely take the wares I bring, and think not worse of me for mixing freely with them in the market place of activity and labor.

I am auxious to give my freble aid to the gigantic struggle for intellectual elevation now going on, and fling my energies and will into a cause where my heart will zealously animate my duty.

It is too true that there are dense clouds of ignorance

yet to be dissipated—huge mountains of error yet to be removed—but there is a stirring development in 'the mass' which only requires steady and free communication with truth to expand itself into the enlightened and practical wisdom on which ever rests the perfection of social and political civilization; and I believe that all who work in the field of literature with sincere desire to save for the people' have sufficient perception to thoroughly estimate those who are truly with and for them.

I only ask a trial. I will give the best my judgment can offer from the co-operation of healthy and vigorous talent and my own continued efforts.

Head Quarters, REDEEMING ITS PLEDGE TO THE PEOPLE

KENDAEL & NIMS have made a great strike in the purchase of their Goods the present season, buying them very early, (during the cholera times.) and before the rise in the market.
